Kirsten,

In less than a week, Emerge America has been mentioned twice in the New York Times as an organization that is leading the resistance against Donald Trump.

Yesterday's piece by Brittany Bronson talks about the strides Nevada's state legislature has made since it elected more women and highlights Emerge America and Emerge Nevada as reasons.

> *"A national organization called Emerge America, which recruits and trains Democratic women to run for office, is attempting to address this problem. Emerge Nevada had nine of their graduates on state ballots last November.*
>
> *Eight of them were elected."*

In the 2016 election, these eight Emerge Nevada alums were responsible for flipping both of the state's legislative chambers back to Democratic control.

This year, Emerge America has more than 140 women set to run for office. Next year, we will have even more on the ballot.

Donate today and help us expand our efforts to recruit and train even more Democratic women!

Andrea
